### ***Weekly Ranger Athletics Recap***

Coach TJ Cox's Ranger Men's Basketball team remains undefeated in the month of February after defeating Grayson College on Saturday afternoon in Ron Butler gymnasium. Sophomore guard, Shay Davis, started out the game hitting 4 3-point baskets in the first 10-minutes of the game. The Rangers would not look back as they would never trail in the ballgame. Earlier in the week the Rangers took down Collin County Community College 68-60 once again defending their home court.

Riddled by injuries, coach Gabi Laurent's Lady Ranger Basketball team dropped 2-of-3 this past week. The lone bright spot coming on Monday as the Lady Rangers defeated nearby rival, Cisco College, 62-49 at home. Despite their efforts against Collin County and Grayson College, the ladies would drop their other two games of the week. The team played well against Grayson, but the lack of depth would catch up to them as Grayson pulled away in the last 2-minutes.

### ***More Than Just Books by Golemon Assistant Librarian, Helen Cozart***

Be sure to stop in the library for our Blind Date With a Book. Take a chance to find a new love with a random checkout.

Are you familiar with ChatGPT? On the surface it looks like a way for students to let an AI do all their work, but there are a few ideas you can use to prevent plagiarism while allowing them to feel like they are getting away with something. One of the key methods is to have them do more of a methodology, writing about their research while writing about the research topic, explaining their steps and why they went the route they did. [This article](#) from the Chronicle of Higher Education helps explain some techniques. The library has started putting together a [website related to ChatGPT](#) and tools you can use to ensure your students are following policy. Policy, however, has yet to be established, so work in progress. It is a new technology and will take a bit to work it all out.

[What to do this weekend:](#) Get your oompah on! It's the [Ennis Czech Music Festival](#). On February 18<sup>th</sup>, come join the Czech Polka Bands of Ennis at the 16th Annual Ennis Czech Music Festival, a family atmosphere filled with great music, dancing, food, kid zone, and much more!

As part of our [International Year](#), this week we are celebrating Japan and the [Sapporo Snow Festival](#). The snow festival first began in 1950, when local middle and high school students created six snow sculptures in Odori Park. This is their first year back

since COVID and they are doing it strong with 160 sculptures. The word sculpture is something of an understatement.
