Texas Core Curriculum Statement of Purpose

Students will gain a foundation of knowledge of human cultures and the physical and natural world, develop principles of personal and social responsibility for living in a diverse world, and advance intellectual and skills that are essential for all learning.

Course Description

Study of quadratics; polynomial, rational, exponential, and logarithmic functions; systems of equations; progressions; sequences and series; conic sections; and, matrices and determinants.

Required Background or Prerequisites

Two years of high school algebra or a C or better in MATH 0323 or equivalent.

Required Textbook and Course Materials

Blitzer, College Algebra, An Early Functions Approach, 4th Edition, Pearson Publishing
ISBN 978-0-13-447002-3

MyMathLab Access Code, Pearson Publishing

Graphing calculator (TI – 83 or 84) strongly recommended

Multiple supplementary documents distributed via Blackboard including but not limited to the following:

- o Fundamental Mathematics Vocabulary
- o Properties of the Field of Real Numbers
- o Strategy to Factor Algebraic Expressions
- o Strategy to Solve Verbal (word) Problems
- o General Analytic Techniques for Polynomial Graphs

Course Purpose

This course focuses on quantitative literacy in logic, patterns, and relationships. The course involves the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experiences.

Learning Outcomes

Upon successful completion of this course, the student will:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve, and apply systems of linear equations using matrices.

Core Objectives

This course directly meets the following of the six Core Objectives:

- ✓ **Critical Thinking Skills (CT)** – Creative thinking, innovation, inquiry, and analysis; evaluation and synthesis of information.
- ✓ **Communication Skills (COM)** – Effective development, interpretation and expression of ideas through written, oral, and visual communication.
- ✓ **Empirical and Quantitative Skills (EQS)** – The manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- ✓ **Teamwork (TW)** – The ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- **Social Responsibility (SR)** – Intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- ✓ **Personal Responsibility (PR)** – The ability to connect choices, actions, and consequences to ethical decision-making.

Methods of Instruction

This is a multimedia class. Media/methods include informal lectures, discussion, computer managed homework, computer delivered tutorials, limited self – pacing, instructional television, and distance delivery via Blackboard.

Methods of Assessment

- **Homework/ Participation (15%) (CT, COM, EQS, PR)**-This grade component will be determined by combining the percent completion of all assignments with the composite average of the assignments completed and participation in discussions. An absence is considered excused when the teacher is notified in advance of the absence or if the student is involved in an extracurricular activity.
- **Quizzes (15%) (CT, COM, EQS, PR)**-There will be short in-class quizzes.
- **Projects (25%) (CT, COM, EQS, TW, PR)**
- **Major Exams (20%) (CT, COM, EQS, PR)**-There will be 2-3 scheduled tests taken during class time.
- **Final Exam (25%) (CT, COM, EQS, PR)**-This is a departmental exam and may be used for data collection purposes as well as determining the course grade.

Grading scale: A: 90-100% B: 80-89 C: 70-79 D: 60-69 F: Below 60

Classroom Policies/procedures

- Class participation is strongly encouraged for optimal learning.
- Students are expected to be seated by the beginning of the class.
- If a student has the equivalence of three weeks of unofficial absences the student may be dropped from the class with a grade of F (Ranger College General Catalog).
- Excessive tardiness (6) may be considered as an absence.
- It is the responsibility of the student to inform the instructor of an excused absence. An absence may be excused by the Dean for participation in an authorized college activity or for a valid medical reason.

MATH 1314

- Any student who is disruptive to the class will be dismissed from the class and may be dropped from the course. Any student misconduct will be reported to the Dean of Student Services (See Student Handbook.)
- A student found to be cheating or copying on an exam or quiz will be given a grade of “0”. Repeated acts of cheating may result in being dropped from class with a grade of “F”.
- Any student found with unauthorized material(s) such as cheat sheets, electronic devices, etc. during a quiz/exam or copying from another student’s work will be subject to disciplinary action.
- Please do not bring cell phones, I-pods, or other electronic devices to class or be sure they are turned off. Computers (lap tops) may be used with special permission and only for math class material.
- No use of tobacco products is permitted anywhere on campus.

Non-Discrimination Statement

Admission, employment, and program policies of Ranger College are non-discriminatory with regard to race, creed, color, sex, age, disability, and national origin.

ADA Statement

Ranger College provides a variety of services for students with learning and/or physical disabilities. Students are responsible for making initial contact with the Ranger College Counselor, Gabe Lewis (glewis@rangercollege.edu). It is advisable to make this contact before or immediately after the semester begins.
