

Welcome Message from the Dean of Nursing

Welcome to Ranger College's Nursing Program. The program promotes values of diversity, community service, cultural competency and respect for humanity. I trust that you will find your educational journey with Ranger College an enriching and rewarding one and it will prepare you to meet the demands and challenges of a dynamic and evolving healthcare industry.

Nursing provides a world of opportunities, but it also faces many challenges as the healthcare industry continues to evolve. From issues such as globalization, diversity, educational requirements, integrational of technology, and legal requirements. These are just a few of the areas in which you will be prepared here at Ranger so that you can be an effective provider of care weather at the bedside or in the boardroom. The educational you receive here at Ranger is only the first step of a life -long learning career and one that we are proud to be part of in your journey.

The road ahead is not easy but we are here to guide you. It requires you to have persistence, perseverance, work hard and be open to new knowledge. You will learn how to think critically, and this knowledge will transform not only the care you provide but how you reflect and process information.

Here at Ranger College, we continue to be innovative and make required changes to improve the program to be relevant to current issues and trends in the nursing profession. The aim of this is to prepare nurses who are current in their knowledge and have the required skills and competencies needed. Thank you for allowing us to be a part of your educational journey and we look forward to seeing you walk across the stage on graduation day.

Welcome to the nursing program, and most of all, welcome to the profession of nursing.

Dr. Jonas Nguh, PhD, FACHE, FNAP, NEA-BC, RN

Dean of Nursing
